

CA202

End Clamp with DIN rail clamping screw suitable for DIN35 Type DIN Rails in Grey Color

End clamps (also known as end stops or end brackets) are used in terminal block assemblies to secure terminal blocks firmly on the DIN rail, preventing them from sliding or shifting due to vibration, wire tension, or mechanical stress.

Dimensions

Color	Grey
Dimensions	44.5 x 50 x 9.5 mm

Technical Data

Material	Polyamide
Material Grade	V2
Type of End Clamp	Screw

Ordering Information

Standard Pack	50
